Shop towel dispensers and rolls supply the workshop's absorbent, lint-free towels for wiping hands, tools, oil and spills, keeping cloths clean, visible and used once. A dispenser system controls usage and keeps the benches tidy.

Key Features

- Wall and bench dispensers
- Roll and folded formats
- Lint-free strong paper
- Perforated tear points
- Bulk refills

Typical Uses in the Workshop

- Wipe hands and tools after jobs
- Absorb small spills and drips
- Clean machine surfaces
- Check oil and fluids

Safe Operation

1. Pull the towel from the dispenser
2. Wipe or soak the spill
3. Dispose of used towels correctly
4. Restock the dispenser as needed
5. Keep the area tidy

SAFETY NOTES

- Never wipe hot or burning metal with towels
- Oily towels go in the safety can, not the bin
- Do not use towels near flames
- Keep dispensers away from washup splashes
- Dispose of solvent-soaked towels properly

Maintenance & Consumables

- Restock rolls on schedule
- Clean the dispenser holder
- Check the roll stocks
- Keep a bin by the dispenser
- Log the usage for ordering

Specification & Buying Notes

Bulk shop towel rolls with sturdy dispensers cut classroom paper waste. Quality towels absorb and lint little. Perforated rolls control usage.
