

Mobile Whiteboards and Flipchart Stands

DT Workshop Equipment Reference — D&T / STEM resource for school workshops | Design & Documentation

Mobile whiteboards and flipchart stands bring a writeable teaching surface to any part of the workshop - briefings at the bench, design reviews by the machines and impromptu sketching. Folding stands and locking castors make them move and park easily.

Key Features

- Double-sided magnetic whiteboards
- Adjustable-height stands
- Flipchart pad clamps
- Locking castors
- Fold-frame mobile models

Typical Uses in the Workshop

- Brief classes at the workbench
- Sketch and review designs on site
- Teach safety points by machines
- Group work presentations

Safe Operation

1. Position the board facing the group
2. Lock the castors
3. Draw with whiteboard markers
4. Use the flipchart to save sheets
5. Wipe and park between uses

SAFETY NOTES

- Lock the castors before writing
- Do not overload the marker tray
- Watch the stand when folding
- Keep the boards clear of machines
- Store against a wall when parked

Maintenance & Consumables

- Clean the boards with board cleaner
- Replace worn markers and erasers
- Check the stand locks and castors
- Restock flipchart pads
- Tighten any loose fixings

Specification & Buying Notes

A double-sided magnetic board on a stable stand suits briefings at the benches. Quality finish resists ghosting; cheap boards stain. Buy with markers, eraser and pads.
